ZOGAN'S REVENGE

After Zogan was defeated at Bolimol he retreated with the remaining orc army and marched into Freand!

He set up camp at the far side of Battle valley and began his new campaign to rid this land of good.

His first target were the mud monsters he believed that if the mud monsters had helped him, he would not have lost the war. Zogan called on all

his magic powers and one by one the mud monsters dried and crumbled to dust! As Zogan became more powerful the evil that burned inside him began to take its toll. The dark force engulfed Zogan, his body and face twisted and distorted into a hideous form. It was at this time that Bogmole, following Zogan's trail, arrived in Freand with prince Eldrin and the dwarf army. As prince Eldrin and the dwarfs marched towards Battle valley, Bogmole decided to visit his old swamp and see what damage had been done. After a short walk he arrived at Black hill. Suddenly, three orcs appeared and surrounded Bogmole. They were about to attack when Randor the dwarf burst forth from behind a tree. He drew his sword and charged into the orcs. Now, badly wounded the orcs retreated up Black hill and disappeared. Randor then explained to Bogmole how he had been sent by prince Eldrin to act as bodyguard and to travel with him on his journey.

YOUR QUEST...

You are Bogmole, the last of the swamp monsters. With the aid of Randor you must hunt down Zogan and destroy him before he commits total genocide on the mud monster race. Gregor, the wizard of Bolimol, has promised to help when he can and Bernard the beaver has already entered Freand and is now searching for you...

DEEP PROBE

Two weeks ago a huge underwater volcanic eruption ripped open the seabed in the North Atlantic. Since then, several ships and three Royal Navy submarines have disappeared in that area without a trace!

The cause of these disappearances is not known at this time and

all vessels sent out to investigate have also disappeared. A five mile exclusion zone has been placed around that part of the ocean and all merchant shipping has been ordered to stay clear of the area. A robotic pod, armed with a high filter camera was sent down to investigate. Deep sonar probes from the pod revealed a massive fissure had opened up and multiple echoes within the fissure were reported.

Possible reasons for the multiple sonar echoes could be due to reflections from large underwater tunnels or caverns, although all contact with the pod was lost before this could be confirmed. The only information received, was one picture transmitted by the pod before it was destroyed. Cause of pods destruction, unknown....

YOUR MISSION..... IF YOU CHOOSE TO ACCEPT IT.....

You again play the part of Captain Henson, pilot and designer of the deep salvage rescue sub 'Anttilis', which has been slightly redesigned and re-equipped for this mission.... You have been asked by the Government to make a one manned deep probe expedition of the fissure and find out what is going on down there....

THE LOST TOMB OF ANANKA

When the pharaohs of Egypt died, to avoid tomb robbers they were buried inside hidden chambers which were cut into the cliffs. These cliffs were situated in a remote valley on the west bank of the river Nile, opposite Thebes. This valley was known as the Valley of the Kings. It was believed that all the tombs in this valley had been found, until the chance discovery of an ancient stone tablet. This tablet was covered in hieroglyphics and unlike those found on the Rosetta stone, were of a type never seen before. Professor Rolf Sorinson head of antiquities at the Cairo museum managed to decipher part of the hieroglyphics and had sent the tablet onto Dr. Jack Foswell, expert in Egyptology at the British museum. It told of an ancient Pharaoh called Ananka and gave this brief history...

During the 5th dynasty, the Pharaoh Menkauhor of lower Egypt formed a defensive alliance with Ananka, Pharaoh of upper Egypt. The Hittites were trying to extend their empire into Egypt. Menkauhor and Ananka joined forces and defeated the Hittite army at the battle of Kadesh. After the battle was won, Ananka turned his army against Menkauhor and destroyed him! Now controlling upper and lower Egypt, Ananka began the cult of Osiris, ruler of the dead. Ananka called on the Gods to give him great powers and they bestowed unto him all the forces of the underworld! When Ananka's reign was brought to an end in a bloody battle, Harsaphes, relative to the king Menkauhor, took the throne of Egypt.

Ananka was then labelled the Great Criminal and hastily buried.

THE CURSE

According to the Hieroglyphics on the tablet, the great god Ra had placed the scroll of life within the tomb along with huge statues of the gods to keep

Ananka's powers alive. The tablet also spoke of Ananka's heart being weighed in the judgement hall of Osiris and the Devourer being unleashed to walk within the tomb as guardian for all eternity, destroying all who entered!

YOUR QUEST

You play the part of Dr. Jack Foswell. After many months of hard work, you finally decipher the last part of the tablet. It speaks of a secret way into the tomb from the cliffs and gives the true meaning to the curse! Before you have a chance to warn Professor Sorinson, you receive word that he has been killed in a landslide while entering the tomb from the base of the valley. It was also reported that a strange sound was heard before the landslide happened.

You immediately head for the Valley of the Kings and using your knowledge, find the secret entrance to the lost tomb of Ananka.

As you are lowered down onto a ledge outside a cave, the rope above you is cut!. Suddenly, you hear a scream and the bodies of the native bearers fall past you and smash on the rocks below.

You now find yourself alone, with no where to go, but inside!

Adventure for the Spectrum 48k and all 128's in 48 mode. Plus D and Sam disk version.
